

ORION EDUCATION GROUP USA

Dear Students,

We are writing to inform you of some important updates regarding the future of Orion Institute.

Firstly, after careful consideration, we have decided that the planned acquisition of Orion Institute by the California College of Business, Science, & Technology (CCBST) will not proceed. As a result, Orion Institute will remain under the ownership and leadership of Orion Education Group USA (OEG). While the transition to CCBST will not take place, we extend our best wishes to CCBST for their future endeavors.

However, we are thrilled to announce that Global Equity Investment Group Corp. (GEIG), under the leadership of Jennifer Williams as its key principal, will now be pursuing the acquisition of Orion Institute through OEG. This development brings a new level of excitement for the future of the institute, largely based on the direct knowledge and experience Mrs. Williams holds in the post-secondary education sector as well as that of our oversight agencies.

Jennifer Williams has over 21 years of experience in the higher education sector, having worked with numerous institutions across the country in high-demand fields like Massage Therapy, HVAC, Cosmetology, Automotive Technology, and more. Her expertise spans operational leadership, regulatory compliance, and accreditation, and she is widely recognized for her ability to transform institutions while remaining focused on student success. Under her guidance, GEIG will bring a wealth of knowledge, experience, and a strong commitment to student-centered education. The potential of this acquisition represents a significant opportunity to further strengthen Orion Institute's Twenty-Eight (28) year legacy of providing high-quality training and educational opportunities.

We are confident that this new direction will create even more possibilities for our students and provide additional resources to support your academic and career goals. Jennifer Williams' leadership and GEIG's vast experience in the educational sector ensure that Orion Institute will continue to thrive and grow in the coming years.

We will continue to keep you informed as this process progresses and look forward to the exciting changes ahead. If you have any questions or would like further information, please don't hesitate to reach out to us at OICIO@orion.edu.

Thank you for your continued commitment to your education. We are excited about the future and are confident that Orion Institute is poised for even greater success.

Best regards,

Troy E. Harris
